

MASSILLON PRISON WAS IN DANGER

Mob Gathered Bent On Lynching Negro Charged With Assault

RIOT GUNS DISTRIBUTED

And Entire Police Force of City Was Impressed Into Service.

Massillon, O., July 11.—The city hall police station last night was surrounded by a mob of police armed with loaded riot guns in preparation to resist the threatened attack of a mob of farmers and railroad men assembled north of the city bent on doing violence to Harvey Mickens, 24, a negro, under arrest for attempted criminal assault upon Myrtle Evans, the 16-year-old daughter of Richard Evans of Newmarket, in a secluded place along the Pennsylvania railroad tracks north of the city yesterday afternoon.

After half a dozen men demanded of Chief of Police E. M. Ertle 10:30 last night that he hand Mickens over to them the chief spirited Mickens to the county jail at Canton.

Mickens was captured by officers after a long chase on a locomotive and hand car which were pressed into service, and was brought to the city last evening under heavy guard and lodged in the jail.

So violent were the threats of the mob that Chief of Police E. M. Ertle at once ordered out the entire police force and armed them with riot guns, loaded with buckshot.

The chief for the first time in the history of the city hall, took possession of the keys to the jail and is holding them in his possession. "The girl is at the home of her father in a serious condition from shock. Physicians are caring for her. She carries deep bruises and marks upon her arms, which bear evidence of the violence of her struggle with the negro. Mickens is in his cell nursing a sore thumb, which the girl fiercely bit during the encounter. He declines to discuss the case, except to admit that he took hold of the girl. He denied the girl's statement that he had attempted to drag her into bushes along the track where he accosted her.

According to the girl she was walking from her home to this city, when in a lonely place two miles north of here she met Mickens. He spoke to her and then suddenly grabbed her by the arm. She screamed and a mob followed. The girl is big and strong and put up a hard fight against the small negro.

She finally got his thumb in her mouth and bit down hard. The negro let go of her and fled up the track. She turned and ran at top speed to the shanty occupied by a switchman a mile away, where she breathlessly told her story. Z. T. Shoemaker, Pennsylvania yardmaster, was near by, and, hearing the girl's story, at once ordered his men to quit their posts, board a switch engine and go in pursuit of the negro. While the men were preparing to leave police headquarters was notified and Motorcycle Policemen August Seifert started out for the scene.

On a road which parallels the railroad track he overtook the posse and boarded the train. Upon receiving another message Chief of Police Ertle started out in an automobile. Near the scene of the alleged assault the railroad men left the engine, took a handcar and continued the chase.

In the meantime Chief Ertle had caught up with the flying posse and officers and men began to scour the countryside. A large mob of farmers had left their harvest fields and were following. Woods and fields were searched.

Two miles from the spot where the alleged assault took place two boys caught sight of the negro dodging in behind some bushes along a fence. They summoned the officers, who entered the thicket. Mickens surrendered without a struggle.

Cries of "Lynch him!" went up from the mob, and the officers at once hurried the negro across the fields to where the yard engine was waiting and under full steam brought him to the station here, where he was locked up.

A crowd gathered about the jail, but as dispersed without difficulty. At 8 o'clock last night police headquarters received word that 200 men had gathered in the north end of the city, prepared to march on the city hall, batter down the cell doors and free the negro, out and lynch him. Chief of Police Ertle at once strengthened his guard, sent out officers and prepared to spirit the negro to the county jail if necessary.

RECOMMENDATION FOR PROTECTION OF NEWARK AT RAILROAD CROSSINGS

State Representative Dugan and Newark Officials and Citizens Go Over Dangerous Grade Crossings Monday Afternoon.

If the recommendations made by J. B. Dugan, representative of the Public Service Commission of Ohio, are approved by the commission regarding the requests made by Newark councilmen and citizens for protection at the railway grade crossings in this city, Newark will have the protection asked for in every instance, except at Oakwood avenue, in the East End.

After viewing the various crossings under contention, in company with city officials and citizens and representatives of the two steam roads in the city, Mr. Dugan recommended a crossing watchman at Second street, a bell operated by this watchman to be placed at First street, an automatic bell at Pine and Williams streets, and further precaution by the trainmen at the Oakwood avenue crossing.

At North street, Mr. Dugan thought that the vision was clear north and south and that with proper precautions on the part of people using the crossing, that there need be no danger.

At Oakwood avenue, he said the same condition existed, a clear view of the track in both directions. At this crossing, however, he asked the Pennsylvania officials to issue a bulletin ordering the trainmen to place a member of the crew at the crossing when a train was stopped and cut on the crossing.

According to his agreement, Mr. Dugan met the city officials and citizens at the city hall Monday afternoon and the trip to the various crossings was made in automobiles, Wm. H. Broome, E. M. Baugher, Otto Vogelmeier and Denis White furnishing motors free of charge to the party.

When the start was made the party consisted of the following persons: J. B. Dugan, representing the state commission; Mr. Coulter, representing Superintendent Bonebrake of the Pennsylvania lines west of Pittsburg; Superintendent J. P. Lewin of the B. & O. at this division point; Mayor John M. Ankero, City Auditor Wm. Wulthoff, Clerk of the Council James McCarthy, Councilmen Herman Elmsner, Louis Stare, John Prior, Henry Baker, Philip Vogelmeier, O. D. Irwin. Interested citizens who accompanied the party were Wm. E. Miller, E. M. Baugher, Justin Gleisner and Wm. H. Broome.

The first crossing visited was Second street and then to First street. At Second street Mr. Dugan recommended a watchman, but at First street he thought a bell to be operated by watchmen and switchmen would be sufficient. According to his suggestion he will recommend that this bell be operated by the Second street watchman for trains east bound and by the switchman between First and Second streets for trains west bound.

After viewing the Oakwood avenue crossing Mr. Dugan expressed his opinion that the view of the track was clear enough and that the only danger would probably arise when a train was stopped on the crossing and to allow free passage of traffic. In this case he recommended that the trainmen be instructed to place a man on guard to warn persons wishing to cross, if there was any danger.

At North street the commissioner thought that the vision was clear enough to eliminate any danger, except from the carelessness of the public. It was as safe as any grade crossing could be.

At Williams and Pine streets Mr. Dugan recommended that an automatic bell be placed, to be operated by the approaching trains, to continue ringing as long as the danger existed at the crossing.

The party then visited the proposed subway improvements at Second, Third, Fourth, Fifth and Sixth streets and was shown the proposed plans which have been prepared under the auspices of the South Side Citizens' Association.

After viewing the locations and inspecting the plans, Mr. Dugan paid a high compliment to the association for the judicious manner in which the plans have been prepared and the progress made in the matter. He said that this was the only way to eliminate such trouble, viz: To eliminate the grade crossings by the construction of subways beneath the tracks.

His recommendation that the work be pushed through to completion and his approval of the plans as far as they have progressed, will have much to do with the final decision of the council.

His recommendations as above given, with regard to the protection of life at the crossings mentioned, will be made in his official report to the commission and as the representatives of the commission are generally supported in their recommendation, the orders will no doubt be issued very soon from the office of the commission at Columbus.

Regarding the plans for the proposed subways, Mr. Baugher made the statement that these plans would be introduced at the next meeting of council. This will be next Monday night. As far as is known, there will be no antagonism on the part of the members of council. Most of the city clads are in favor of the proposition, many of the councilmen being vitally interested in the proposed improvement on account of the benefit derived by the city in general and the great protection to lives and property and the increase in property values south of the railroad.

APPOINTMENT OF DENISON PROFESSOR AS DELEGATE TO GEOGRAPHIC CONGRESS AT ROME

An Honor for Professor Carney Secured Largely Through the Efforts of Congressman Wm. A. Ashbrook.

Prof. Frank Carney, professor of geology of Denison University, has just been conferred upon him an honor that is not only highly merited, but one that will have the hearty endorsement of educators and Baptists all over this district. Word has just been received here that Prof. Carney, through the efforts of Congressman W. A. Ashbrook, has just been appointed as a delegate from Ohio to the tenth international Geographic Congress to be held in Rome, Italy, Oct. 15-22 next. Some time ago Prof. Carney, in conversation with Congressman Ashbrook, expressed a desire to attend this congress as a delegate. Mr. Ashbrook immediately took the matter up with Secretary of State Knox, with the result that Prof. Carney received the coveted appointment.

Prof. Carney came to Denison a few years ago, after his graduation at Cornell, and accepted the position of professor of geology, in which he made good from the start. His department occupies the entire third floor of Barney Memorial Hall and is unusually well equipped with everything needed, the laboratories especially being complete in their appointments. Prof. Carney has done a great deal of research work and has quite a reputation throughout the country as an eminent geologist. He held the position of president of the Academy of Science of Ohio for one year with distinction. Last summer he taught in the University of Virginia, where he did most excellent work. In addition to his other duties in Denison, he is also editor of Scientific Bulletin of Denison University, for which he has written many valuable scientific articles. He has the congratulations of all his friends in receiving this appointment which Mr. Ashbrook was mainly instrumental in securing for him.

IMPORTANT LETTER HAS VANISHED

Committee is Unable to Secure Vital Paper in Alaskan Land Case

BROTHER OF PRESIDENT

According to Document, Influenced Executive to Favor the Guggenheim Interests.

Washington, July 11.—The story of a vanishing letter, both addressed and signed "Dick," from Richard S. Ryan of New York to Richard A. Ballinger, then secretary of the interior, purporting to show that Charles P. Taft had influenced his brother, President Taft to favor the alleged attempt of the Guggenheim interests to acquire Controller Bay, the only outlet for large coal fields in southern Alaska, figured in a congressional inquiry begun yesterday.

The testimony before the house committee on expenditures in the interior department and statements from the White House and from Charles P. Taft's offices failed to lift the mystery enshrouding the alleged letter. Commissioner Dennett of the general land office, the only witness, testified that he knew nothing of it and that he would not necessarily know of its existence, and such a letter was not recalled in other quarters.

The letter was not to be found in the files, though Miss M. F. Abbott, a newspaper writer, who will testify later, says she copied such a document from the official files. President Taft has expressed confidence that his brother never communicated with him on the subject, either orally or in writing.

Miss Abbott, already subpoenaed as a witness, probably will appear before the committee Wednesday.

Commissioner Dennett testified that some time between the framing of the first draft and that of the final order opening the Controller Bay lands to entry the usual provision was eliminated, which would have required 60 days' notice from anyone intending to file on the lands. He did not know who struck it out and did not attach much importance or mystery to that point but replying to questions said the effect of the omission would be to give advantage to those on the ground who happened to know of the order.

It was explained later that this order was given to the press at the time.

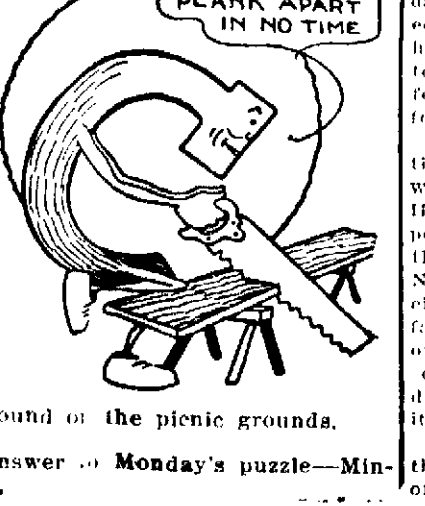

Among the witnesses the committee will summon is Ashmun Brown, a Seattle newspaper man, who was private secretary to Secretary Ballinger and who, according to Miss Abbott, was present when she saw the alleged Ryan-Ballinger letter.

Secretary Fisher of the interior department issued a statement concerning the interview attributed to Miss Abbott in which she referred to a postscript to a letter from Mr. Ryan to Secretary Ballinger.

No reference, whatever, says Mr. Fisher, was made in this interview to what Miss Abbott calls the amazing postscript, which she says she found attached to a letter to Secretary Ballinger from Mr. Ryan, nor was this postscript ever mentioned or referred to in any other interview which I have ever had with Miss Abbott or anyone else, prior to its publication in a Philadelphia newspaper.

"I am told upon my return that the most diligent search of the records of this office has failed to disclose any such document and every one who has searched the record says most emphatically that he has never seen this postscript or any other writing of this character. This includes Mr. Brown, who was private secretary to Secretary Ballinger."

WHAT IS IT?

FEDERAL EXPRESS TRAIN GOES OVER EMBANKMENT KILLING 15, INJURING 55

Bridgeport, Conn., July 11.—Rushing eastward 40 miles an hour, the Federal express on the New Haven railroad plunged over a 30 foot viaduct on the outskirts of this city early today, killing between 12 and 15 persons and injuring 55, of whom 20 will probably die.

The wreck caught fire almost immediately and the city fire department had to be called to prevent many of the passengers being roasted to death in the wreckage. The train made up of engine, baggage car, two day coaches and five sleepers, was more than an hour behind time and was running at high speed through the suburbs. As the engine reached the viaduct at State street and Fairfield avenue, in West Bridgeport, it swayed far over, and the front of it struck the coping of the viaduct.

The impact threw the engine from the rails and it crashed over into the streets, carrying with it all of the cars with the exception of the two rear Pullmans.

The two day coaches were torn to pieces and most of the dead were later found in these cars. The heavy Pullmans piled up on the wreckage, the whole forming an indescribable mass of torn and twisted wood, iron and steel, which made the task of removing the dead and injured most difficult. Passengers in the two cars which remained on the track started the work of rescue immediately and they were aided by the police and fire departments of this city.

It was necessary to chop a hole through the roof of the topmost cars to get at the injured and dead below. The wreck occurred at 3:30 o'clock this morning.

An early list of the known dead follows:

Mr. W. Christie, Philadelphia.  
Mrs. George Rogers and her infant son, Washington, D. C.  
Unidentified young woman.  
Unidentified woman, 3 years of age.  
Unidentified boy, about 55.  
Engineer and fireman of the Colonial Express, names not known.

Negro passenger, about 30.  
Unidentified trainman.  
Two unidentified children.

**The Injured.**

At St. Vincent's hospital this city, the following list of dead and injured was given out.

Dead:  
Unknown woman.  
Dying, Mrs. Sarah Calabro, Philadelphia, and her three children, Christie, Tony and Ida.  
Mrs. Bertha Monroe, Cliftondale, Mass.  
Mrs. Mary Walker, Washington, D. C.  
Mrs. Mary McCann, 50, Philadelphia.  
Mary McSweeney, address unknown.  
Mrs. Jas. B. Boyce, 62, Washington, D. C.  
Mrs. Mary Note, 65, Washington, D. C.  
David Kissner, 38, New York.  
Frank Von Pfeiffer, Philadelphia.  
John Von Pfeiffer, 9, Readville, Mass.  
G. B. Rogers, Washington, D. C., member U. S. Coast artillery.  
Rogers stated that his wife and two children had been killed in the wreck.  
Carl Frazer, colored, 49, Haver De-Green, Md.  
Eleanor Wilson, 11, Philadelphia.  
Mr. Murdock Somerville, Mass.  
Mrs. Connor, Philadelphia, ribs broken.  
Mary Sweeney, Phillipsburg, Pa., aged 50.  
Henry Christman, Middleton, Pa.  
Edward M. Green, Huntingdon, Pa.  
Mrs. Mary Seecol, Philadelphia.  
Mrs. Carrie Holmes, Philadelphia.  
Mrs. B. Harris, Philadelphia.  
Mrs. Mattie Cornish, Philadelphia.  
Mrs. Mary Johnson, Tres Creek, South Dakota, going to Jamaica Plains, Mass. Possible fracture of the left arm, not seriously injured.  
Edwin M. Green, Huntingdon, Pa., narrow escape from suffocation will recover.

A woman about 46 years of age died at St. Vincent's just as she was brought into the hospital.

The wreck is said to have been caused by the engine swaying as it shot past a cross-over and striking the side of the viaduct.

Of the seven coaches on the train, only two kept the track. The engine and five coaches toppled over into the street.

In plunging to the street the express blocked all trolley traffic for several hours. There was a brilliant electric display from the torn trolley wire but none of the passengers were electrocuted as was early reported.

Wreckers came from New Haven, Bridgeport and the Harlem River and ambulances and doctors from the city.

**ROAD MAKES STATEMENT.**

New Haven, Conn., July 11.—Scattered that thirteen persons were killed and injured in the Bridgeport wreck on the New Haven railroad's press made the following statement: "Train number 73, Fairfield at 3:29 a. m., and was wrecked at 3:32 a. m., consisted of U. S. Fish Commission car, baggage car, coach and six sleepers, total nine cars. The engine and first six cars left the rails at the cross over and went down the bank; most of them in the street at Fairfield avenue. Of the remaining three sleepers, two are still on the rails, while one of the sleepers was derailed.

"The accident was due to the engine striking the cross-over from Track No. 2 to track No. 4, at a high rate of speed, estimated at close to 60 miles an hour. Time card rules specify fifteen miles an hour.

"The killed are Engineer A. M. Curtis, Fireman W. A. Ryan and eleven passengers.

"The injured are Conductor M. J. Furey and 41 passengers. They are being taken care of in different hospitals at Bridgeport. Some of the passengers have proceeded on their way to Boston."

SCORES OF VICTIMS BEING CLAIMED BY THE HEAT WAVE SWEEPING OVER COUNTRY

Chicago, July 11.—Chicago and vicinity are in for three days more of baking and parching according to local weather forecasters. Twenty-two deaths of adults had been recorded, and 11 babies died directly from heat causes.

The threatened ice famine has materialized, and warnings were issued today to all consumers to use the utmost economy. Deliveries were eight to ten hours late, and only half supplies were to be had. Restaurants and hotels suffered considerable loss in perishable foodstuffs as a result.

Ice companies and health officials notified the public that extravagance would reduce the city to the plight of Hartford, Conn., where the last 150 pounds of ice was distributed among the sick. Dispatches state Pittsburgh, New York, Philadelphia and other cities are on the verge of ice and milk famines. Miniature thunderstorms here only increased the suffering, for the cent rain that fell was instantly reduced to steam and doubled the humidity.

Dispatches from the East show that the hot wave has again enveloped all of that district. Weather forecasters said last night a cool wave was forming along the Pacific Coast, but its effect would hardly be felt here for at least two days. The far West is enjoying temperate weather. Wyoming reports frost Sunday and Monday mornings and all the Rocky Mountain region is cool.

Because of the unusual number of deaths in various cities, the public has paid little attention to the large number of horses killed by the long siege. It is estimated that this loss will run into thousands. In Chicago and New York horse ambulances are working constantly, day and night, removing dead and dying animals from the streets.

Prospects are brighter throughout the corn belt, owing to soaking rains. These came too late to save hay, oats and pastures, and live stock markets will be flooded with half-fed and inferior hogs and cattle because the growers cannot afford to feed them.

Unusual heat conditions throughout Michigan, Wisconsin, Minnesota and far across the Canadian border indicate that the late fruit crops will be very short, and canners and the market for fresh supplies must look to the Pacific Coast for stocks. Failing pastures and short hay crops also mean security in butter and cheese and correspondingly high prices.

One peculiar incident of the heat is the case of Miss Mollie Bartlett, aged 21, of Elgin, Ill. She was stricken unconscious by the sun's rays July 3, and has not yet regained consciousness. She is breathing, but can take no sustenance. The case is puzzling the numerous physicians who have been consulted.

**BAR ASSOCIATION AT CEDAR POINT**

Cedar Point, July 11.—Members of the Ohio State Bar association are arriving very slowly for the thirty-second annual assembly which opens here at 2 o'clock this afternoon. About 750 of the 4,000 active members of the bar in the state are members of the association, but it is not expected that the attendance will be more than 200. Discussion of the coming constitutional convention is expected to be an important feature of this year's meeting.

WALTER DIEHL UNDER ARREST AT TERRE HAUTE

Word was received by the Newark police department Tuesday morning that Walter Diehl, wanted here on a charge of first degree murder, was under arrest at Terre Haute, Ind. Diehl has evaded arrest ever since the trouble here last July. He was indicted by the special grand jury and his name was withheld pending his apprehension.

The local police department has been after him for nearly a year but he has successfully eluded the officers until his arrest at Terre Haute.

Captain Charles Swank left Tuesday afternoon for Terre Haute and will return with the prisoner at once.

MEN ASK ADVANCE ON ACCOUNT HIGH COST OF LIVING

Cincinnati, July 11.—Men employed in the shops of the C. and O. railroad of Covington, Ky., are ready, it is declared today, to go out on a strike with 12,000 fellow workmen unless the officials grant a raise of five cents an hour. A referendum vote has been taken by the men at Covington and those at the shops at Huntington, W. Va., Richmond, Va., Clifton Forge, Va., and Cairo, Ind. The railroad men are seeking to renew the old scale of wages but men based their claims to advances on the general higher cost of living.

CONGRESS MAY ADJOURN EARLY DURING AUGUST

Washington, July 11.—Friends of the reciprocity in the senate today were jubilant over what they believed was a definite prospect of the adjournment of congress by the first week in August. The defeat of the Cummins and Slamm amendments yesterday by a majority of more than 3 to 1 was believed to forecast a similar fate for other amendments to the measure and nearly passage of the bill.

WILLIAM WAS TIRED OF LIFE AND ENDED ALL

Sandusky, July 11.—"Born without brains, tired of life and everyone down on me so I am ready to die. Take care of mother." This is the message left by William Hoffman, 28, a farmer, before shooting himself today. He left \$4,000 in the bank.

## BEMIS HEAVES NO-HIT GAME AGAINST HUTS IN SEASON'S TIME RECORD

**But One Man Reached First and He Was In Front of a Double Play Which Retired the Side—Only 27 Men Faced Bemis In Game Which Went One Hour and Ten Minutes.**

In the shortest game of the season Pitcher Peggy Bemis, one of the crack heavies of the Newark staff, shut out the Terre Haute team in the excellent exhibition Monday afternoon, not allowing a single hit in the entire nine innings. But one man reached first and that was Third baseman Kohl. He negotiated a pass in the sixth inning, but that was as far as he got. For Murray cut him off at second on the front end of a lightning double play.

Even this pass would not have been made had it not been for a little rag chewing between Newhouse and the players on the Newark bench while Kohl was batting. Two offerings by Bemis were called by Newhouse and when the Newark men kicked, Frank offered the information that he would "call 'em all balls so long as the players on the bench kept up that line of talk."

It cost Bemis a pretty record, but had no bearing on the result. There has been an increasing tendency on the part of Newark players to "kick" Newhouse and he is so full of business that he doesn't like it a bit. No effort has been made to cause him trouble in any other line.

Only 27 men faced Bemis in the nine innings. In every other inning but the sixth, the men were retired before reaching first. In this inning Kohl started for second on a blow to Murray, but was cut off before reaching the second station. The pass to Kohl made the record for the game of 26 men at bat.

Newark played a star game in the field as well as at bat. Murray made a sensational play when he knocked down Barkwell's hit, stabbing it with his gloved hand and retiring Barkwell at first. It was as near a hit as the Huts were able to get.

With two out in the first, Pendry worked a pass for a pass and stole second. Wickland beat out a long hit to short and also stole second. Gray was counted on for a safety, but Kohl fielded his effort to first and the side was retired.

In the second Craven singled through third and Kihm sacrificed. Parker drove a straight one to the center field fence for three bases, scoring Craven. Parker himself scored a few minutes later on Bemis' single to right. These two runs were enough to win, with Bemis retiring the opposing batsmen in order each inning.

Craven played a nice game in left. Callahan being out of the game again owing to a slight indisposition.

The score:

Lancaster	34	45	.430
Hamilton	30	51	.370

**TODAY'S GAMES.**  
Chillicothe at Hamilton.  
Portsmouth at Springfield.  
Piqua at Lima.  
Lancaster at Marion.

**YESTERDAY'S RESULTS.**  
Chillicothe, 8; Hamilton, 3.  
All other games postponed, rain.

**Escaped With His Life.**  
"Twenty-one years ago I faced an awful death," writes H. B. Martin of Port Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything I could hear of for my cough and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so and was completely cured. I feel that I owe my life to this great throat and lung cure." It's positively guaranteed for coughs, colds and all bronchial affections. 50c and \$1.00 Trial bottle free at F. D. Hall's.

Servia seems to be a land favorable to longevity, her population of less than 1,300,000 including more than 500 persons who have lived more than a century.

## DAYTON LEADERS HERE FOR THREE FAST GAMES

The Dayton Vets arrived in Newark Monday evening for a three game series at Wehrle park, which started this afternoon at 3:15 o'clock. This team leads the Central League and is composed of a bunch of high class ball players. Many old favorites are on the team roster, including Big Ed Asher, formerly of Newark and Jack Compton, a former Lancaster player. Others well known here are members of the club.

The team plays here tomorrow, Wednesday, and also on Thursday afternoon. With the class of ball put up by the Newark team since its arrival in Newark, Dayton will have to go some to take the series. Hale will pitch today in all probability and Werder may work in the Wednesday session.

Three good games are assured and Newark fans should take advantage of this opportunity to see the Central League stars in action.

## SOCIAL FOR BENEFIT OF BASEBALL

The lawn fete which was announced last week to be given on the lawn at the home of Ralph I. Davis, 101 North Sixth street, has been set for Wednesday night. It will be remembered that Mr. Davis and a number of his neighbors conceived the idea of giving this lawn fete and donating the proceeds to the baseball guarantee fund.

The Licking County Creamery will donate a portion of the cream required, the ladies of the neighborhood will donate the cakes and other articles which will be offered for sale will be donated by Newark baseball lovers.

The expenses of this affair will be light and a good sum should be netted for the guarantee fund. This fund is still incomplete and arrangements are now being made to publish a list of those who donated money to assure baseball in Newark. It will require considerable work to prepare this list and it will take considerable time. Newark fans are anxious to see the list and it will be given out as soon as prepared.

## SHORT SPORT

If President Lynch works at his trade and shows the "fellow feeling" he is suspected of entertaining toward umpires, Sherwood Magee will play no more baseball this year, the result of his assault upon Umpire Finnegan.

As a trial horse for new white hopes, Finnegan was an "also ran."

Will C. Morris please write? He may hear something to his interest.

In the American League, where the owners have a pleasing way of backing up President Johnson in anything he does, there hasn't been an umpire killed this season. Interesting, but dull.

In anticipation of the forthcoming mixup with the Athletics Ty Cobb and Sam Crawford have bought new shoes and Harveyzed armor spikes. Also a file with which to sharpen them. Second basemen, beware.

Even a railroad wreck can't stop those Bresnans. Poor Stanley Robinson got together a bunch of winners, but couldn't live long enough to witness their triumphs.

President Comiskey of the White Sox has offered \$15,000 for O'Toole and Kelley, St. Paul's star battery, but Manager Bresnahan has boosted the ante to \$16,000. Being Irish, they're worth it.

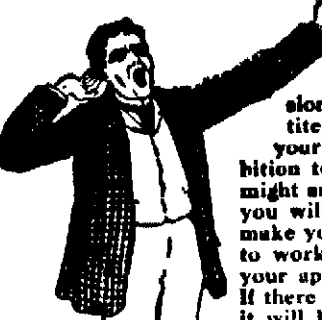

## EXCELLENT SCORES AT 200-YARD RANGE

Camp Perry, O., July 11.—Colonel "Buzz" Stephens of the 11th regiment yesterday did some remarkable shooting for a novice over the 200-yard range, when he hung up a score of 39 out of a possible 50. This is considered by marksmen the hardest range of all to shoot over. Colonel Stephens scored one bull's eye, seven fours and two threes. He will now shoot over the 300 and 500 yard ranges, and has a good chance to qualify as a marksman and secure a medal.

Capt. A. W. Underwood, Company H, Hillsboro, was designated as Acting Major in command of the Third Battalion, Major Arthur French being assigned to the Second Battalion. Captain Glancey, Co. K, Batavia is the ranking captain, but as one commissioned officer of the company is absent, he desired to remain on duty with his company.

A protest made to Senator Atlee Pomeroy that the Postoffice department had neglected to open the Camp Perry mail station brought results today in the form of information that it will be opened Wednesday in the mess hall.

Imbued with the spirit of progress, Uruguay is spending millions to beautify Montevideo and the interior cities and to improve the health of their inhabitants.

### Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at night unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicine, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

### WIRELESS WAS MENACE TO SHIP'S MANY PASSENGERS

### Carries Most Sand

San Francisco, July 11.—That the wireless was a menace and not a help to the passengers on the ill-fated steamer Santa Rosa, which went on the rocks near Point Conception last Friday, was the testimony given before steamship inspectors here today. Despite the fact that it has been established that no passengers were lost in the wreck the inspectors are making a thorough investigation into the circumstances of the disaster. The inquiry developed that Capt. Faria held the passengers on the vessel all day Friday because officials of the company at San Francisco kept inquiring by wireless how much it would cost per head to transfer them.

According to government figures the number of food animals in the United States has decreased about 5,000,000 in the last decade, while the number of consumers has increased about 12,000,000.

**THAT OLD SWEETHEART OF YOURS.**  
How many men in middle age recognize in their careworn, overworked wives, the beautiful girls whom they won in their youth? Overwork produces premature age and should be avoided by using Hewitt's Easy Task Soap for kitchen and laundry work. It's the original white laundry soap and has been giving satisfaction for a quarter of a century. Costs five cents a cake, and you need its help.

## The Sample Shoe Shop

HENRY BECKMAN

### The Economy Shoe Store

Instead of meeting on the club day this week, the Tuesday Afternoon Sewing club will give a picnic tomorrow afternoon on the pretty lawn surrounding the home of Mrs. George Howell of Linden avenue.

One of the pleasant out door events given on Sunday was the outing at Picnic Rock which was given to honor Miss Adele Sanger of Plaqu, O. The afternoon hours were happily spent and a delicious picnic luncheon was served.

Those in the party were: Mr. and Mrs. Richard Markham, Jr., Mr. and Mrs. Frank Busch, Mr. and Mrs. Charles Redman, Mr. and Mrs. Emmett Westbrook, Mr. and Mrs. John Hein, Mr. and Mrs. W. E. Westbrook, Miss Wintermute, Mrs. Anderson, Miss Adele Sanger, Elsie Bishop, Flora Eaton, Amy Bishop, Pearl Bishop, Ina Bishop, Florence Helm, Helen Redman, Esther Redman, May Markham, Mr. Earl Markham, Mr. Max Markham.

The local chapter of the Alpha Pi fraternity entertained a number of friends on Monday evening with a dance at Moundbuilders' Park. The park orchestra furnished the dance program. Among the dancers were:

Misses Bernice Wintermute, Mary Kewley, Claude Howard, Frances Collins, Anna Sprague, Helen Wright, Martha Wright, Marie Evelyn, Olive Black, Camille Windle, Ada Woodard.

**Heart and Home Talks**  
by Barbara Boyd  
Simple Talks on Health.

### High Level Living.

**I**O get the most out of life, both in achievement and enjoyment, one needs to live at the highest level. This does not necessarily mean living at high tension or high pressure. In fact, one cannot live at the highest level without having efficient physical machinery and efficient mental machinery; and when one is living at high pressure, one is not always most efficient.

Living at high level means using the best of one's self, not the lowest, or the least. High level living is a condition of growth. This is the healthy condition and the happy condition, for happiness is a consequence of health and right achievement.

If we live at a low level, that is, if we drudge along doing just as little as possible, we weaken every faculty for thought and high feeling. We make drudgery of life. We sink into a rut, and we become content to stay in that rut. Life becomes circumscribed.

Sometimes we sink to this low level of living because our physical machinery is out of order. Flabby muscles are often the chasm between willing and doing. To some extent, we tread in a circle. We live at the low level because we lack energy to rise. And we lack energy to rise because we live at this low level.

For living at a low level brings stagnation. Our blood flows sluggishly. Our mind is inactive. Our physical and mental machinery is clogged.

One, then, must make the break to get out of this endless circle, this treadmill of existence. One must get above these miasmatic lowlands of life.

A sound body is the foundation upon which to build upward. With a good body to stand upon, the highest levels can be reached. And a sound body is not such a difficult matter to acquire, if one will go earnestly about getting it or keeping it. Obedience to certain simple laws of health will keep the body in trim—right food, sufficient exercise, fresh air, rest, recreation. Most people break or neglect all these laws. Their energy drops below par, and they too, drop to a low level of living. And work and life become monotonous drudgery.

If a person is sound physically and still lives at a low level, he is suffering from mental inertia. He probably doesn't realize what high level living means. He doesn't glimpse its joys, its exhilarations. He should wake up. He should put himself in touch with others who live the larger life, and thus he will come to see how worth while high level living is.

And high level living is for all. It isn't only for the professional man or the man of leisure. Every one should live at his highest level, the little shop girl, the clerk, the business man, the mother. Children grow away from a mother who herself does not grow and keep her life vivid. Living at the highest level means dwelling on the mountain tops of life where one sees life in its fullness on all sides. It is decidedly worth while. And many of us have unsuspected levels in us to which we can not climb.

Barbara Boyd

## Keep Baby Healthy in Summer

It is easier to keep some children in health in winter than in summer. And yet it is very important that the child should be strong and well during the hot weather. In the first place, a very little ill is liable to develop into a large one in summer because of the germs in milk.

**USE DR. CALDWELL'S SYRUP PEPSEN**  
water and many kinds of food. You should be especially careful not to allow your children to become irregular in their stools during the heated term. The best relief you can give it, and the surest permanent cure, is Dr. Caldwell's Syrup Pepsin, the guaranteed laxative tonic. It is exactly suited to the needs of children because it is gentle and mild in action, absolutely pure and free from narcotics, pleasant to take, and yet does its work promptly and efficiently. Thousands of mothers keep it constantly in the house against emergencies, and as a bottle costs only 50 cents or \$1.00, and can be conveniently obtained of any druggist, no family should be without it. If you are one who has never tried Dr. Caldwell's Syrup Pepsin and would like to do so before buying it in the regular way, you can obtain a FREE BOTTLE by sending your address to:

DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, N.Y.

**Wedding.** Mr. and Mrs. Fox received many useful and beautiful presents. Those present were: Mr. and Mrs. Frank Priest, Mr. and Mrs. Charles Fox, Mr. and Mrs. Otis Allen and daughter Helen, Mr. and Mrs. Joseph Shaw and daughters Gladys and Mary of Ft. Norpel, Ind., Miss Margaret Fox of Cincinnati, Mr. and Mrs. Frank Fox, Mr. and Mrs. Louis Fox, Mr. and Mrs. George Fox, August and Karl Fox, Mr. Hoyte and Miss Earle Ross, Mr. Good and daughter Lulu and Mr. Albert Miller. The day was spent in games of all kinds, Mr. August Fox winning the barefoot race and Mrs. Frank Fox the sewing race.

Miss Louise Hunter is entertaining the members of the Tuesday Afternoon Bridge club this afternoon at her home in Buena Vista street.

**McNAMEE—CASHDOLLAR.**  
George C. McNamee, a young carpenter of Basil, O., and Josie B. Cashdollar of Patahala, were married Monday evening at 4:30 o'clock, Justice George W. Horton performing the ceremony at his office. The newly married couple will make their home in Basil.

### CUT GLASS AND CHINA.

Dainty pieces of china and sparkling gems of cut glass tastefully arranged bespeak a housewife's sense of the beautiful. The most essential factor in the care of chinaware and cut glass is freedom from dirt and grease, the enemies of brilliancy. Best results in this regard can be obtained by the use of Hewitt's Easy Task Soap. It loosens the dirt and cuts the grease, but does not scratch. Costs five cents and keeps things sparkling.

### TOMORROW'S MENU

#### BREAKFAST.

Stewed Potatoes Coffee

#### LUNCH.

Crabs a la Creole Toasted Muffins  
Fruit Lemonade

#### DINNER.

Cucumber and Onion Soup  
Pilaf of Chicken Wax Beans  
Rice Stuffed Tomato Salad Cheese  
Wafers Corn Starch Blanc Mange  
Coffee

Recipes for July 12, 1933.  
Crabs a la Creole. Chop fine a small onion and a green pepper (seeds removed), and fry very slowly in butter for five minutes. Add one cupful of chopped tomato pulp (no seeds or skin), a half cupful of chicken broth and half a dozen soft shell crabs, which have been cleaned and quartered. Season with salt and celery salt, and simmer gently for twenty minutes.

Pilaf of Chicken. Pick over and wash one cupful of rice, put it in a saucepan with one pint of rich beef or chicken stock, one-half of a teaspoonful of salt and one teaspoonful of onion juice. Cover and cook slowly until the liquid is absorbed, then add one pint of stewed and strained tomato. In five minutes season to taste, then cook slowly until the tomato is absorbed. Cut one pint of cooked chicken into dice, saute it until a golden brown in butter, turn it carefully into the rice, add two tablespoonfuls of butter, cover and set at the side of the fire for twenty minutes and serve on a platter.

## ASSAULT CASE TURNED INTO A WEDDING PARTY

When the case of Ohio vs. Silas P. Roberts was called before Mayor John M. Ankele, his honor was called upon to assume the role of a marrying magistrate instead of that of a presiding officer in a court of preliminary examination.

Roberts and Miss Iva Holler faced the mayor and in a few words he united them in the holy bonds of wedlock.

The groom was the defendant in a case in which he was charged with assault with intent to kill, it being alleged that he threatened to cut the young woman's throat with a pocket knife. Mrs. Roberts, nee Holler, refused to be a party to the prosecution, and declared that she was not willing—but anxious to marry Roberts. The ceremony followed.

## BRADY RIDENBAUGH TAKES LIFE PARTER

Monday evening, Rev. L. C. Sparks united in marriage Mr. Brady Ridenbaugh of this city and Miss Elsie May Motens, whose home was until recently in New York city. For the present they will make their home in Newark.

### FAMOUS DETECTIVE STORY FREE.

The complete story in book form that will go with every copy of next Sunday's New York World is the third adventure of Mr. Peter Raff, entitled "The Demand of the Double Four," by Dr. Phillips Oppenheim, unquestionably the greatest writer of detective stories this country has ever produced. There will also be two most interesting love stories in The Sunday World's Fiction Magazine, "A Diabolical Experiment," by Christian Lys, and "The Other Man," by Sara Cone Bryant. The Sunday World's Fiction Magazine is well worth the cost of the big Sunday World alone. Order your copy in advance.

The gypsy moth, which has caused such havoc to trees in New England, is said to have been brought into this country by a college professor who wanted to breed a hardy silk worm.

For sale by all druggists.

## MAY ESTABLISH AN EMPLOYMENT AGENCY AT THE GIRLS' CLUB

Mr. C. H. Wirmel, Commissioner of Labor, Columbus, was in the city Tuesday at the request of Representative W. E. Stokes for the purpose of arranging an employment agency for the Business Girls' club of this city. While here they called on Mrs. M. M. Miller of the Girls' club committee, and after Mr. Wirmel had had the case stated to him he informed Mrs. Miller that he was very favorably impressed with the plans for an employment bureau, and that after he had a consultation with the Attorney General regarding the matter he would fully advise her in regard to establishing it.

The local committee consists of Mrs. C. C. Metz, Mrs. M. M. Miller, Mrs. Hannah Allen, Mrs. W. H. Henderson, Miss Laura Jones and Miss May Van Horn.

This committee has been planning for some time to open an employment agency in connection with their other work. The principal object in having an employment agency in connection with the club is to establish more amicable relations between employer and employee.

## GIRLS BOUND OVER TO COURT

New York, July 11.—On a charge of attempted murder, Lillian Graham and Ethel Conrad were today held for the grand jury by the magistrate before whom they have had their hearing in the Tombs police court. The magistrate stated that the story told by W. E. D. Stokes, the millionaire whom the girls are charged with attacking, had not been contradicted and he could do nothing but bind the girls over.

## DEMONSTRATION FEARED AGAINST EVELYN ARTHUR SEE

Chicago, July 11.—Open threats that have been made against Evelyn Arthur See, head of the cult of Absolut Life, and the intense state of public feeling against the prophet, today caused the court officials to double the guard in the court room in anticipation of a demonstration against See in the event that the youthful jury that is hearing the case should free him. Attorney Callahan opened the final argument for the defense today. His speech was one of the bitterest attacks ever heard in a Chicago court room. He said that the persecution of See was a conspiracy of the state's attorneys to gain fame, the police to gain prestige and the press to sell papers.

Buried iron pipes can be located without unnecessary digging by sending electric currents through them to set up waves which can be picked up by wireless receiving apparatus that has been designed especially for the purpose.

## RAINFALL COMES AS A WELCOME RELIEF TO ALL RESIDENTS OF LICKING

One of the heaviest rain storms that has visited this section of country for a long time, swept over Licking county Monday evening, and came as a boon to the farmers, who were almost disheartened over the condition of their crops which have been suffering for moisture for a long time. The rain of Monday night was general over the greater part of the county, although in some parts it was more severe than in others.

Throughout the entire Licking valley there was a splendid fall of rain, which was of the soaking kind, and will be productive of good results. In the vicinity of Hebron, in the southwestern part of the county, the rain fell in torrents and there was but very little wind and no hail. Most of the wheat in this part of the county has been threshed and there was but very little damage done in this direction. Some little hay, however, was caught by the rain, although the greater part of it had been cared for. The farmers in this part of the county are jubilant over the outlook.

Word comes from Union and St. Louisville that there was a splendid rainfall there Monday evening. The rain was accompanied by some wind and much thunder and lightning. All crops in this part of the county will be greatly benefited by the rain.

Up in the northeastern part of the county in the vicinity of Rocky Fork, one of the most terrific electrical storms that has visited that part of the

county for many a day, swept over the country. Rain poured down in torrents for fully three hours, and all the streams in the vicinity were bank full. Considerable corn was blown down and threshing was interfered with. Everybody however, is happy over the glorious rainfall, and it is said that you can fairly see the corn growing up there today.

In the Cherry Valley there was a great downpour of rain. It was of the penetrating kind, and as it continued for more than an hour will be worth thousands of dollars to the farmers in this part of the county.

Mr. Austin Pix, a prominent farmer residing about six miles east of Newark on the Zanesville and Newark road, says that while they had a splendid rain in his vicinity still the downpour was not as great as it was in other parts of the county. He says that there was a strip of territory near his place where the rain scarcely fell at all. That it seemed as though the clouds broke over this small territory and spread apart, but that they afterwards came together farther east, where there was a bountiful fall of rain.

One of the hardest rains that has fallen in Granville this year flooded the streets and low lands Monday evening about 4:30 o'clock. The rain continued for more than an hour and was greatly appreciated by the farmers, especially in this vicinity.

In the vicinity of Wilkins Run, there was a nice rainfall. The rain was accompanied by considerable thunder and lightning, and in several instances stopped the work of threshing.

### HEAVY FRUIT CROP.

South Bend, Ind., July 11.—The fruit crop of Northern Indiana and Southern Michigan is the largest in ten years. During the last 15 days the Southern Indiana railway, running from South Bend to St. Joseph, has been carrying 1500 crates of cherries and small berries daily and this is only a small part of the crop. The outlook for peaches and grapes is excellent and the chances are that these fruits will become a drug on the market before the harvest is completed. Throughout the whole fruit belt it is impossible to gather in all the fruit because of a shortage of pickers.

## Fugitive Charged With Murder Visits Wife and Children

Uniontown, Pa., July 11.—Armed with two revolvers and liberally supplied with money and in the best of spirits, B. Frank Smith, slayer of his father and brother-in-law, who escaped from the county jail last Monday, paid an hour and a half visit to his wife at his parents' home near here, at midnight last night. The sheriff got a tip that Smith was at the house and with a posse of deputies started in pursuit. The fugitive left in a high-powered automobile just before they arrived. Smith told his wife that he had visited Steubenville, O., Fairmont, W. Va., and other places since his escape. Smith, with two colored boys, made his escape from the jail by fashioning a spoon into a key.

A steam boiler and furnace which requires no chimney because the gas of combustion are mixed with the steam and admitted to the cylinder of an engine has given good results when tried on a Russian torpedo boat.

**HEALTH HINT FOR TODAY.**  
**Sleep Producers.**  
If you don't fall asleep with ease drink a cup of hot milk at bedtime. Slip slowly and have a cracker on the side. In case the milk is not agreeable to your taste have a bowl of oatmeal or cornmeal gruel instead. These are sovereign remedies for the sleepless ones and can cause no harm in any way. An onion sandwich and a cup of hot lemonade are also a good sleeping potion.

With not enough Senators in their seats to warrant a call for a quorum, the reciprocity question can be protracted till the end of the summer. While most of the Senators have hied to the seashore and the mountains to enjoy the cool breezes, a few are left to perform the duty of keeping up the daily sessions. Some weeks have elapsed since Senator LaFollette announced his "great speech" against reciprocity, which may be expected to uselessly consume the better part of a week when once begun. The Wisconsin Senator is now the chief stone of obstruction. He is making a glorious record for a Progressive Republican candidate for President of the United States.

**A UNIQUE SPECTACLE.**

The rather unique spectacle is witnessed of two sovereign states struggling with the liquor question and each pulling in diametrically opposite directions in the hope of finding a proper solution, says the Van Wert Bulletin. Texas is to vote on July 22 on the adoption of statewide prohibition, while Maine, which has enjoyed the fullest benefits of such a law for several decades, is getting ready next fall to try to vote the law off the books. Each of the states is now in the throes of a hot campaign and whatever the results a trail of bitterness will be left that will long taint the political serenity of both communities.

Lights totalling 40,000 candlepower, four times more brilliant than formerly, are to be installed in the torch of the Goddess of Liberty statue in New York harbor.

The invention of a new type of fighting ship will make junk of the world's Dreadnoughts. It is costing the civilized nations of the earth an enormous sum of money to learn that armament affords little security after all, for just as they think they are secure along comes something new to convince them of their insecurity. The people bear the burden.

The taxpayers who are crying against the low tax rate will wake up some day and find themselves in political graves which they dug. Colonel James Faulkner, Columbus correspondent for the Cincinnati Enquirer says, "no party or office holder ever fought a low tax rate and survived politically." Faulkner is right. Judson Harmon's advocacy of the one per cent tax rate is one of the factors that helped to elect him. Those taxpayers crying for a special session of the general assembly to correct alleged defects in the Smith one per cent tax rate bill should close their mouths and get their brains to working. More brain work for the bill and less mouth work against it will make the low tax rate bill a success. It is significant that all of the reported defects in the Smith bill were found by enemies of the measure.

**BRIGHTEN THE BATHROOM.**  
In planning bathrooms, architects unanimously specify white, the symbol of cleanliness and purity. The tile and tub will get dirty but the white effect can be restored and preserved by using Hewitt's pure white Easy Task Soap. It cuts the grease and loosens the dirt, but does not scratch. A cake only costs a nickel.

**PETITIONS MUST BE FILED BY AUG. 6**

All petitions for the primary election in September must be filed with the Board of Elections by August 6. This is the ruling which has been sent out by the Attorney General. Persons who desire to have their names on the primary ballot must have their petitions signed and in by that time. There is no getting away from this order and if the petition is not signed and in by August 6, their names will not appear on the ballot.

**OVERTAXED.**

Hundreds of Newark Readers Know What It Means.  
The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains. Backache, hip pains, headache, Early symptoms of kidney ills. Urinary troubles, diabetes, Bright's disease follow.

A Newark citizen tells here the way to keep the kidneys well.  
C. L. Starr, 89 Hancock St., Newark, O., says: "I had acute pains through my back and my kidneys were weak, causing me no end of annoyance. I spent considerable money for medicines and physicians' treatments, but to no avail until I used Doan's Kidney Pills. They benefited me so greatly that I publicly endorsed them in November, 1907. At this time I do not wish to retract one word from my former statement and I am pleased to again say that Doan's Kidney Pills are an effective kidney medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's — and take no other.

**OUR 5 PER CENT**

Certificates of deposit are the safest and most desirable investments. (3) Prompt payment of interest. The mail man brings it to your door each six months. Owning your own mortgage, you sometimes have to wait on your interest because of trouble with the borrower. Not so with our certificates. Our interest paid from the Assets \$1,800,000. **A BAD SITUATION.**

The intense heat of the past several days produced an ice famine of such proportions at Tiffin that the saloons, meat markets, ice cream parlors and homes in which there is sickness have been supplied. On Sunday there was no ice at Tiffin, as the ice plant machinery broke down.

**ROASTIN' EARS.**

Soon we'll all be gay and happy as bay steers! Soon we'll wipe away the briny, flowing tears! If we've sorrows we will lose 'em, joy will permeate each bosom, for the season is at hand for roastin' ears! For the fancy Frenchy dishes I have jeers and the Waldorf bill of fare to me appears, like a thing that's out of fashion, for I have a perfect passion for the good old roastin' ears! Oh, my parents bid farewell to griefs and fears, and my granny turns a somersault and cheers, when the corn is on the table and we all feel fit and able to devour about a ton of roastin' ears! Nothing better can be found in all the spheres! It's a diet for the soldiers and the seers! And my joy's too great to utter when I spread a wad of butter on the fragrant and the tempting roastin' ears! Oh, the bards will greet this rhapsody with jeers and they'll sing about their roses down the years, but there's nothing more inspiring than the corn we're all desiring, nothing nobler than the juicy roastin' ears!

**TO INCREASE WATER SUPPLY FOR GRANVILLE**

Board of Public Affairs Arranging for a New Well—Village Visited by Welcome Rain.

Granville, July 11.—The people of Granville are to be congratulated on the fact that they will soon be supplied with ample water for all needs. The Board of Public Affairs, which has the matter in charge, is now making arrangements with drillers to drill another well and the contract will call for a good flow of water. While the people of Granville have not yet realized the pangs following an absolute water famine, the absence of the sprinkler and the cutting down of the lawn sprinkling has given them an idea of what a water famine would be. Now while the water supply is low it is to be hoped that they will take the advice of one well versed on matters of this kind, and boil their water while waiting for fortune to bring to their hands a better condition. When water is scarce chances are longer, and citizens cannot always dictate terms or conditions.

Granville was visited by one of the most severe electrical storms this season, about 4:30 o'clock Monday evening. Dark heavy clouds rolled up from the west while a yellowish cyclonic cloud appeared in the northeast, both rushing towards each other with great speed. When the two forces came together, it looked for a few moments as though the flood gates of heaven had opened, and the rain descended in torrents, flooding the streets of the village in an incomparably short time. The rain continued falling for more than an hour and was of inestimable value to the growing crops. The storm had the effect of cooling the atmosphere, and affording some relief after the torrid wave that has lasted for some days. It was comfortable sleeping Monday night for the first time in a week.

Mr. Joseph C. Barney, who died at Cleveland, and whose remains were brought to Granville and interred in Maple Grove cemetery, is well remembered by many of the older people of Granville. He was born in Cincinnati. He came to Granville when quite young and attended Denison University, but gave up his school duties to accept the position of superintendent of the Granville schools, which he held for two years. Afterwards he filled the position of superintendent of the public schools at Warren, O. for six years, and also filled positions in the schools at Walnut Hills, Cincinnati, and other places. He graduated from Madison university (now Colgate University), New York, after which he became superintendent of the schools at Willoughby, O., and was well known. For the past year he passed a retired life in Cleveland.

While it has been claimed that the potato crop in this vicinity will be short, growers are encouraged by the fine rain of Monday evening, and some are inclined to the opinion that they may yet have "some potatoes." In the terms of a time honored expression, the potatoes are mighty small, and few in a hill. Many fields of potatoes in which the tops grow luxuriantly have practically no potatoes at the roots. The reasons assigned for this condition of affairs is the dry weather during the month of May, which discouraged the vines from developing more than one or two tubers. Potatoes planted in March fared the best of any this year, as they got a good start before the drought.

Your correspondent noticed a number of dogs running around in the village unmuzzled. Perhaps the owners of the animals are not aware that Mayor Barnes recently issued a proclamation pertaining to the muzzling of dogs. According to his proclamation all dogs must be muzzled or securely fastened. Any dog found running at large contrary to the proclamation will be shot and the owner fined as provided in the ordinance. This is meeting with considerable favor, even by dog owners, since it is a safe guard against rabid dogs, which in other years, and one occasion this summer, have been in evidence during the hot months.

Mr. and Mrs. Charles Wingett, Mr. Weller, son and daughter of Marysville, after a short visit with Mr. and Mrs. William Chrysler, have returned home.

Mr. E. S. Arnold, one of the efficient clerks in the Ulman drug store, made a short visit with his mother in Loudonville.

Miss May Stark and Miss Ada Shafer of the "Tea Cups," have been spending their vacation with friends in Earlville, Ill.

Miss Jessie Wright and niece, Miss Eva Wright, recently enjoyed a pleasant visit with friends in Mt. Vernon.

**HURT WHILE MAKING FLIGHT AT LIMA PARK**

Lima, O., July 11.—Wm. A. Scott, a well known aviator throughout the state, has been giving exhibitions of balloon flights during the week at the park at this place, and on Sunday evening was badly hurt in a fall. The balloon in ascending struck some telephone wires and Scott was hurled from his seat on the trapeze. He suffered a compound fracture of both legs and internal injuries. He is in a hospital here.

**AFTER THE GRIP CUMMINS AMENDMENTS VOTED DOWN**

If You Do Not Recover Your Usual Health Try This Treatment.

For three years after an attack of the grip Mrs. C. B. Pierce, of South Britain, Conn., was in poor health and found no relief until she built up her blood with Dr. Williams' Pink Pills. She says: "I attribute my sickness directly to an attack of the grip. I had fainting spells, which came on me without warning. I would faint away while sitting in a chair or lying in bed. After recovering from them I would be deathly sick for a week or so. I became so much worse that I began to have two or three fainting spells a day. These spells so weakened me that I had scarcely enough strength to get around. My limbs would become swollen especially at night. My sleep was broken for I was extremely nervous and apprehensive of some impending danger. I had severe headaches most of the time and a darting pain over my left eye which affected the whole side of my head. I was troubled with neuralgic pains around my heart and was frequently confined to my bed."

"During two years of my sickness I was treated at different times by three doctors. Their treatment did not afford me relief so I decided to try Dr. Williams' Pink Pills. A few boxes of the pills gave me much benefit. My headaches became less severe and I began to feel better in every way. I gave the pills a good trial and was completely cured. I am in good health now and praise Dr. Williams' Pink Pills for they undoubtedly saved me from years of suffering."

Dr. Williams' Pink Pills have also cured anaemia, chlorosis, general debility, rheumatism and after-effects of fevers and should be given a trial whenever a tonic for the blood and nerves is needed.

Dr. Williams' Pink Pills are always the same and are sold only in packages bearing the well-known trade-mark and are guaranteed by the manufacturers to contain no opiate, narcotic or anything that could injure the most delicate system.

The genuine are sold by all druggists or will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y. A valuable booklet, "Diseases of the Blood," containing fuller information will be sent free upon request.

**GATHERED BIG CHERRY CROP**

Washington, C. H., July 11.—If anyone has an idea that it does not pay to own a fruit farm in Ohio let him read these figures: W. D. Wood of Mt. Sterling, has a bearing cherry orchard of 1700 trees, which he set out in 1905. Two years ago 20 bushels of cherries were picked and last year 40 bushels. This year the crop amounted to 440 bushels. One hundred pickers were engaged part of the time.

**MOSQUITOES BAD THIS YEAR**

But don't scratch the poisoned skin. Use a mild, cooling, healing compound that stops the itch instantly, draws out the poison in the skin and protects it against further trouble.

Just a mild cleansing wash of oil of wintergreen, thymol and a few other ingredients known as the D.D.D. Prescription (so famous in cases of Eczema) and you have mosquito protection for the season.

Yes, instant relief—now only 25c. F. D. Hall, 10 North Park.

**WILL NOT ABANDON EFFORTS FOR NEW CITY HOSPITAL**

The management of the City Hospital desires to state to all the citizens who are interested in the project of building a new hospital for our city that, notwithstanding the fact that little has been said about the matter of late, those who have the work at heart have in no wise lost their interest, nor do they intend to abandon their efforts until their hopes are fulfilled.

Having been assured by Mr. Everett that the gift he proffered is ours we have been awaiting his pleasure as to the time he deems it best to deliver us the deed to the property and to state his conditions as to the use of the money and any other requirements necessary.

In the meantime we have been carrying on the work as carefully and efficiently as ever. By the aid of the city and the help of other liberal givers we have never fallen behind in our finances in all our history, nor do we anticipate any such catastrophe. We are not satisfied, however, to continue paying out for rent year by year money that ought to be put into a new building that would afford larger and better accommodations.

Let by our silence the general public might conclude that the interest in the matter of a new hospital had been dropped we wish to say that on the contrary many of our people are vitally interested and are very hopeful that some definite action will soon be taken.

**HURT WHILE MAKING FLIGHT AT LIMA PARK**

Lima, O., July 11.—Wm. A. Scott, a well known aviator throughout the state, has been giving exhibitions of balloon flights during the week at the park at this place, and on Sunday evening was badly hurt in a fall. The balloon in ascending struck some telephone wires and Scott was hurled from his seat on the trapeze. He suffered a compound fracture of both legs and internal injuries. He is in a hospital here.

**CUMMINS AMENDMENTS VOTED DOWN**

And Canadian Reciprocity Bill Has Gained Another Victory in the Senate.

Washington, July 11.—The Canadian reciprocity bill emerged unscathed last night from the most serious ordeal it has yet experienced in the Senate. The series of amendments offered by Senator Cummins of Iowa, and the two offered by Senator Simmons of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted to the United States free of duty were voted down by large majorities.

The vote in favor of the amendments was so small that Senator Cummins asked for only five roll calls, although he had previously announced his intention of asking for at least ten. The maximum vote for his tariff amendments was 14, compared to a maximum vote of 53 against.

The defeat of the Cummins amendments cleared the situation in the Senate and left the reciprocity bill much nearer final passage.

Senator Cummins, after the first few roll calls on his amendments yesterday, expressed the conviction that it was the intention of the Senate not to change the agreement in any particular, and that it was useless to press the Senate for further votes. He finally allowed the remainder of his amendments to be voted on together.

On the proposal to put flour and cereal products on the list of articles which the United States will admit free from Canada, Senator Cummins was defeated 52 to 14; on the proposal to put agricultural implements on this list he was defeated 53 to 12; on the proposal to put lumber on the list he was defeated 51 to 12.

Other amendments voted down proposed to admit free from Canada, without demanding like treatment, of American products, automobiles, iron ore, pig iron, coal, rubber, cotton, woolen, leather and silk goods. Senator Bristow demanded a record vote on the rubber amendment, but enough Senators would not join in the demand.

"This is a case where the full tariff duty is reserved for a trust controlled product," said Senator Bristow. "It is evident that the Senate doesn't care to go on record on this matter."

The statement was published here that President Taft has sent word to the Senate that he will veto such separate schedule bills as the Senate may pass after this session, after it passes the reciprocity agreement.

The President has communicated this to some of the leading Senators on the regular side. The statement that he was taking this position in his talks with leading regulars was made by one of the foremost of the regular Senators.

"Nothing but speeches stand in the way of the complete success of the Canadian reciprocity bill, and we are working the speeches off as fast as possible," said Chairman Penrose, of the Senate Finance yesterday.

"Gradually and more rapidly than most people appreciate we are putting the speeches behind us, and I am sticking to a prediction made long since that we shall adjourn either Saturday, July 29, or Saturday, August 5, by which time we shall have voted on and passed the reciprocity bill and voted on the free list and wool bills."

**MANY COUPLES IN RICHLAND COUNTY WERE DIVORCED**

Mansfield, July 11.—Just one hundred couple were released from their martial bondage during the last fiscal year, according to the records of the probate court of Richland county. The number brought within the year was 137. One hundred of these were decided and 37 are still pending. Thirty-seven husbands asked to be excused from "loving, honoring and obeying" their better halves while 100 down-trodden wives wanted the same privilege. Twelve wives were allowed alimony of various amounts.

**FRECKLES**

Don't Hide Them With a Veil — Remove Them With the New Drug.

An eminent skin specialist recently discovered a new drug, othine—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion that it is sold by W. A. Erman & Son under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil, get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask W. A. Erman & Son for the double strength othine; it is this that is sold on the money back guarantee.

## BALLOON RACE HAS STARTED

Seven 88,000-foot Capacity Gas Balloons Sail From Kansas City

### RACE WITH AN ENGINE

For a Fifteen Mile Stretch Won by Locomotive by Close Margin.

Kansas City, July 11.—Driven by a 15-mile wind from the southwest, seven 88,000-foot capacity gas balloons sailed away from here yesterday in the national balloon race. The two leaders in the contest will be privileged to sail two of the three balloons that will represent the United States in the James Gordon Bennett cup race, which starts from Kansas City, Oct. 4.

Every pilot in the race was pleased when the wind carried them off to the northeast. A long patch now stretches before them. There is, of course, the danger of falling into one of the great lakes, but none of the pilots appeared perturbed over this prospect.

The Aero Club of America, which controls the race, has ruled that disqualification would not follow for any of the contestants who should alight in water.

Not a serious accident marred the start. Five of the aerial craft got away in which experienced balloonists said were perfect starts. Too much ballast caused the Topeka II. to collide with a section of a canvas fence.

The occupants of the basket were jarred slightly, and after a couple of bags of sand had been dropped the balloon righted itself and sailed away.

The Million Population Club, piloted by John M. Berry, did not fill perfectly and refused to rise at first. Freed a second time, it climbed slowly upward for about 150 feet and drifted at that height for approximately a mile. The dropping of ballast at this point caused the balloon to rise. When it passed out of sight, an hour after the start, it had ascended to an estimated height of 2000 feet.

At 4:47 o'clock the pilot balloon, Topeka No. 1, which was not entered officially, was sent up. W. F. Jacobs, Topeka pilot; Carl Dientzback of Berlin, aid; F. W. Stein, Atchison, Kan., passenger.

The Topeka No. 1 was permitted to go aloft to act as a pilot balloon for the official entry of the Western Aero Club of Topeka. The balloon took a northeasterly course. A light wind was blowing.

The Kansas City, the first official entry in the race, soared away at 5:10, taking a northeast direction. H. E. Honeywell, St. Louis, pilot; John Watts, Kansas City, aid.

With Wm. F. Assman as pilot and John M. O'Reilly as aid, the Miss Sofia, representing the St. Louis Aero Club, left the ground at 5:20. It went northeast.

The Topeka II. got away at 5:26. Frank M. Jacobs, pilot; Raffe Emerson, aid.

The Million Population balloon, John M. Berry, pilot; McCullough, aid.

The Buckeye of the Cleveland Aero Club arose at 5:43. G. H. Wade, pilot; R. H. Hitchcock, aid.

Te St. Louis IV, Lieut. Frank P. Lahm, pilot; Lieut. John P. Hart, aid, sailed away at 5:48.

The New York, C. B. Harmon, pilot, started at 6:02.

A race not on the regular program

was run between Kansas City and Liberty, Mo., a distance of 15 miles. Just as the first entrant in the race, the Kansas City, was leaving the ground, a passenger train left a railroad station near the field. When it appeared the engineer and Captain Honeywell determined to outdistance the other so long as their paths were parallel. The engine won the race by two minutes.

Great interest centered around the New York, because it held the choice starting position, seventh, in the race, and also because Augustus Post, divided honors with L. R. Hawley in piloting the America II. to victory in the James Gordon Bennett cup race last year. The New York is a new balloon.

Shortly after 8 o'clock last night J. Cowan Hulbert of St. Louis, left the field in his 40,000 foot balloon Missouri in an effort to break the distance record for balloons of that size. The record is 325 miles. Hulbert was accompanied by Henry Weber of St. Louis. The pilot was ill when he ascended, but he refused to abandon his flight. This is Weber's first balloon trip.

Kansas City, Mo., July 11.—The balloon St. Louis IV, passed over Muscatine, Ia., this morning. She was sailing high, but the two acrobats dropped a message to the ground. This is the first balloon reported today of those which rose yesterday afternoon contesting for

places on the American team in the international race next October. Six balloons are competing and the general direction they have taken indicates that there will be a repetition of the dangerous race last fall over the Great Lakes regions.

Rock Island, Ill., July 11.—Five of the starters in the Kansas City elimination balloon race passed over this city today, going northeast. Three of the balloons were visible at one time. A message dropped by the pilot of the Million Population, said that his craft was traveling at a height of 8000 feet.

Portland cement cost \$3 a barrel in 1880, but because of the improvements made in its manufacture it is profitably sold for 81 cents a barrel at present.

### ITCHING IRRITATION.

Worst Form of Skin Trouble Quickly Cured by Inexpensive Treatment.

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting greasy ointment. Try HOKARA, a pure and simple skin food that is guaranteed to contain no grease or acids, and which is so cleanly it does not soil the linen.

Its power to instantly relieve any irritation of the skin and make it soft, white and beautiful is almost miraculous.

Not only are minor skin troubles like pimples, blackheads, acne, barber's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are cleansed and healed by this wonderful skin food.

In order that any one may try HOKARA at small expense, W. A. Erman & Son are selling a liberal sized jar at 25c., and in addition guarantee to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

### ASHLAND SELECTS POSTOFFICE SITE WITHOUT TROUBLE

Ashland, O., July 11.—The site for the new postoffice building for Ashland is to be secured in a more pleasant and satisfactory manner than by condemnation proceedings which were recommended by the agent of the U. S. treasury department. At that time the best price offered the agent was \$15,000, the David property being placed at \$900 and Mrs. Lock's at \$6000. On Friday H. D. Tinsley and R. H. Davis, as executors of the will of Mrs. Catherine Davis and Mrs. Isabella Locks, received word that the used offer of \$12,000 for the site had been accepted and that the order of condemnation would be withdrawn. The price paid \$9000 to the Davis heirs and \$100 to Mrs. Locks takes the ground free of the buildings. A postoffice costing \$100,000 will be erected at once.

## \*\*\*\*\* \* TELEGRAPHIC TIPS \* \*\*\*\*\*

Springfield, Mass.: Hornets tied up the local trophy line when they took possession of a telephone box from which conductors make reports. All hands waited until a hose could be brought into play.

Washington: Gen. Leonard Wood spent an hour inspecting Fort Williams, Portland, Me., and not an officer knew of his presence. An enlisted man finally discovered the boss of the army.

New York: After floating an hour in the lower bay, Mrs. Eva Engelson, who couldn't swim, was rescued by a lad who jumped overboard from a passing steamer. "She's made of cork," declared the captain.

Cleveland: The usual large amount of spooning which takes place nightly in Wade Park was dispensed with last night, owing to the fact that a Zoo bear got loose in the park.

Portsmouth, O.: Before taking her life with rough on rats as a result of domestic trouble, Mrs. James Gibbs left her husband a note which read: "Send my body to my mother, but don't you go with it."

South Norwalk, Conn.: One hundred thousand gallons of oil have been placed on the streets of this town. Now the people are suffering from "oily eye" the newest of human afflictions, according to the physicians.

Akron, O.: Antonio Varrecchia, employed at the Goodrich rubber plant, shot and killed his wife at their home at 6 o'clock this morning. Police are searching the city in search of the murderer.

Union Hill, N. J.: Thomas F. Halloran, 5, died after a week of intense suffering, caused by a fly which crawled into his ear and caused inflammation of the brain.

### FOOT AGONY VANISHES

No Matter How Sore or Painful Your Feet, You Can Dance with Joy Right After Rubbing on EZO.

Don't feel blue and gloomy; good comfortable feet are easy to get. Ask and good druggist for a 25 cent jar of EZO, a really refined ointment.

Then rub it on those sore, tired, tender, burning feet, and the misery will disappear like magic.

Nothing on earth so good for corns, bunions, callouses. It's a new discovery is EZO and it's so easy to use. Just rub it on, and instant relief is certain. It's sure to make your feet feel like Westons the next morning. Mail orders filled, charges prepaid by EzO Chemical Co., Rochester, N. Y. For sale by Evans' drug store.

# Mammoth Alteration Sale

## The Sale With a Purpose and Meaning

Saturday the opening day of this gigantic sale was a revelation to everyone who attended. With but one idea in our minds and that to reduce our stocks as quickly as possible, prices were made without a thought of profit. Can it be of any wonder then that the crowds flock here daily. A large force of workmen are at work now, the work of remodeling has commenced in earnest and when it is completed we are going to invite you to one of the most up-to-date stores in this section with a ready to wear department second to none. Read the items below, they will give you an idea of what to expect here.

### DRESS SKIRTS.

Nearly every one knows the quality and assortment of skirts that we carry and when they know the prices we are selling them at our skirt department will be the busiest part of the store.

Our \$7.50 line of Panama Skirts in black and colors. Alteration Sale price at each .....\$4.98

A fine assortment of Voiles that regularly sold at \$10. Alteration Sale price at each .....\$6.48

\$12.50 Voiles in beautiful new models, cheap at the regular price. Alteration Sale price at each .....\$8.48

Handsome new styles in Voiles, were our best line of \$15.00 Skirts. Alteration Sale price each at .....\$9.98

### WASH SUITS

Every wash suit in the store has been reduced far below half price. It will be more like saving money than spending it every time you buy an article here now.

## The Modern Wash-day

Time was when The Wash was a weekly nightmare, wash-day dinner a by-word.

The New Perfection Oil Cook-stove has changed all that. Once the wash-boiler is on the stove, it leaves you free to attend to the dinner or any other work.

You can move a New Perfection where you please and light it in a moment. It requires no attention after that. A single gallon of oil lasts all three burners seven hours or more. No coal or wood to carry; no fire to feed; no soot nor ashes. It keeps a kitchen or laundry cool and clean. It cooks to perfection, with the least trouble and expense.

## New Perfection Oil Cook-stove

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had without a cabinet top, which is fitted with drop shelves, towel racks, etc. Dealers everywhere, or write for descriptive circular to the nearest agency of

The Standard Oil Company  
(Incorporated)

## 5 Per Cent

# Daddy's Bedtime Story

Jack Learns How To Make a Pigeon Palace

"WISH I had a nice pigeon house, daddy," said Jack one evening—"one like little Jim Waterbury has in his yard. I'd bring the little birds up myself and teach them to carry letters for a cent apiece."

"There you go again," laughed daddy, "always figuring on how to make money. I think you'll be so rich by the time you are about twenty-five years old that I can give up business and you can send mother and me to Europe."

"You bet I will!" whooped Jack. "And Evelyn can go with you and marry a real live prince."

"Don't want any old prince," said Evelyn.

"Ho, ho!" shouted Jack. "I know why, daddy. It's because she wants a king. That new boy from the city who wears patent leather shoes is named Dave King, daddy."

"Hush, now, Jack," said daddy. "I won't have my Evelyn teased even by you, and, besides, if you intend to spend your own or some of my money in buying a pigeon coop you are not the youthful Rockefeller of whom I have been so proud."

"See, Mr. Smarty?" put in Evelyn.

"Now you stop, young lady," said daddy, "because I won't have Jack teased either. Either kiss and make up at once or no story."

Two tiny nightgown figures met in the middle of the floor, and after a kiss apiece and one extra for daddy they darted back to their cribs again.

"You see, Jack," began daddy, "that the pigeon has no wild ideas about the outside decoration of his home. All he wants is a nice comfy inside where the nests will be the prettiest kind of decoration. You must have seen that big packing box out back of the barn. Well, just make your house out of that. Carefully knock out one side and keep the boards to make a swing door. Use only enough to make a good strong frame, just as you would for a picture, and then fill in the space with heavy wire netting. Then put extra nails around every edge of the box to strengthen it and hang on your door with three good hinges at the top."

"Cover the roof with tar paper, paint the whole house a nice green and you'll have as nice a house as possible and be as proud as an architect."

"I'll help you, Jack," said Evelyn.

"I'd love to have you," said Jack.

"Bless both of my babies," said daddy.

A telegram from Mr. C. H. Spencer, at Rochester, Minn., states that an operation on Mrs. Spencer by the Mayo surgeons this morning was successful in every respect and that Mrs. Spencer's condition this afternoon was entirely satisfactory.

**Exciting Runaway.**  
There was considerable excitement near the corner of First and Railroad streets Tuesday morning, when a horse driven by a young man named Charles Allison became frightened at a passing locomotive and ran away, upsetting the wagon. The man was thrown to the ground and painfully injured. The wagon was badly damaged.

**Unbroken recovered and repaired at Parkinson's Elmwood Court.**

## COURT NEWS

**Suit for Divorce.**  
Ella Sampson has commenced suit in the probate court for divorce from Wm. G. Sampson. She says that she was married to defendant March 19, 1897. Plaintiff charges defendant with cruelty in assaulting her and with failure to provide. Smythe & Smythe, attorneys for plaintiff.

**Marriage Licenses.**  
Brady Ridenbaugh, Newark; Elsie May Martens, Newark.  
Sillas P. Roberts, Newark; Iva Pearl Hoiler, Newark.

**Answer to Petition.**  
In the case of Barbara E. Garrison vs. Leroy Garrison, the defendant, by her attorney, S. L. Jones, has filed his answer, in which he makes some serious charges against the plaintiff. Among other things he charges her with having other women to keep their child at nights, when he was at work and supposed she was at home with their child, while she visited disreputable places and met other men. He says plaintiff is not a fit person to have the custody of their child, and asks that plaintiff's petition be dismissed.

**NOTICE.**  
The U. V. L. picnic at Buckeye Lake is called off on account of sickness and further orders. J. L. WYLY, Col. N. O. NASH, Adm.

**LEARNED LITTLE.**  
I do not know what I may appear to the world, but to myself I seem to have been only like a boy playing on the seashore and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me.—Isaac Newton.

**Quarter Century Ago.**  
(From Advocate, July 11, 1886.)  
Miss Kate Conlon, of East Main street, has received the sad news of the death of her sister-in-law, Mrs. Maria Conlon of Alexandria.  
A number of little folks are picnicking today at Magnetic Springs in honor of Miss Edith Flory.  
Company G practiced the skirmish drill under command of Captain Frank Warden on West Main street last night.  
Mr. and Mrs. Tom Simonds are visiting O. C. Jones, North Fifth street.

**Fifty Years Ago Today.**  
July 11.  
Earthquake shook Montreal, other points in Canada and Syracuse, N. Y.  
Desperate fighting at Rich Mountain, W. Va., resulted in victory for Federals commanded by General Rosecrans.  
New Hampshire experienced a tornado.

**Twenty-five Years Ago Today.**  
Niagara rapids passed by O. D. Graham of Buffalo, who accomplished thrilling plunge in cask seven feet long and shaped much like an egg.  
Word came from Brownsville, Tex., that a revolution in Mexico was being plotted by General Martinez and Editors Ramirez and Blas, who had arrived in disguise.

## IMPROVEMENTS ON LICKING ROADS ARE HELD UP FOR PRESENT

There seems to be a hitch in the sale of the \$117,000 worth of Licking county bridge bonds that were supposed to have been sold a few days ago to Breed & Harrison, the Cincinnati bankers, for par and accrued interest, and all plans for road improvements in the county are off until the matter is settled.

The proceeds of the sale of the bonds were to be devoted to the improvement of the following roads in the county: Newark and Jackson town road, 8.44 miles, \$45,000; Newark and Linville road, 5 miles, \$15,000; Granville and Summit Station road, 13 1-2 miles, \$15,000; Newark and Wilkins Run road, 10 miles, \$15,000. So it will be seen that a vast amount of work on the above roads had been planned. Surveyor Cully had even engaged a number of men in addition to the regular force, to assist him in the surveying of the roads, on which actual work was to have commenced in a few days.

It is reported that the Cincinnati firm which purchased the bonds had not yet fully determined as to the legality of the issue. A prominent attorney was in Cincinnati Monday, and it is reported that he was there in the interest of the commissioners, endeavoring to close the matter up. It is thought that the commissioners and the bankers will have solved the difficulty and that the matter will be fully determined by Wednesday morning.

Don't forget the lawn fete at 157 Granville street tonight. 1t

## BRINGS SUIT FOR DAMAGES AGAINST CAMBRIDGE FIRM

Cambridge, O., July 11.—Two damage suits for \$100,000 each, were filed Monday in the Common Pleas court against the National Coal company by Bertha B. Bates, administratrix of David P. Bates, who was killed July 27, 1910, and Elizabeth Shatto, administratrix of John Shatto, who was killed May 11, 1911. Bertha Bates claims her husband was riding on the front of an electric locomotive hauling a load of cars and was struck in the back of the head by a post. Elizabeth Shatto alleges that while John Shatto was going through the entrance of Little Kate Mine No. 2 he was struck by a train of about ten cars and killed. Negligence on the part of the company is charged in both cases.

## CLAIM WOMAN SHORT IN ACCOUNTS

Cincinnati, July 11.—As a result of an investigation of a shortage said to be at least \$25,000 in the accounts of the Home for Incurables, Mrs. John G. Gallagher, treasurer of the home, was in such a critical condition today that fears of death were entertained by members of her family. Members of the board of directors of the institution held a secret meeting today and an expert accountant has been called in.

The Queensland parliament has decided upon state supervision and control of artesian water supplies, with a view to systematically irrigating land that thus can be made suitable for wheat farms.

In point of number of students, Columbia heads the list of American institutions, with 7,463.

Charles, son of Mr. and Mrs. J. W. Thompson of 82 South Second street, who has been quite sick for the past six weeks, is reported as being considerably improved at this time.

Mr. and Mrs. D. C. Martin and son William of Harrisburg, Pa., who have been visiting relatives and friends in Newark and vicinity during the past several weeks, returned to their home Tuesday.

Mr. Charles Stidd of St. Joseph, Mo., was in the city Monday, called here by the death of his father, the late Jacob Stidd. The remains were taken to Belmont for burial. Charles Stidd

## Young Mothers

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both she and her coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby too is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for the book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature. **BRAIDFIELD REGULATOR CO., Atlanta, Ga.**

**Mother's Friend**  
ble monuments and markers. High Foreign and domestic granite and marble work a specialty. 63 West Main Street, Newark, Ohio.

One 1908 Model G. Franklin touring car, cost \$1000, will sell at \$500. If you want a bargain call at No. 7 South Fifth St. Phone 1819. 8d3t

### LEAD US TO IT.

New York, July 11. The largest and most fantastic iceberg of the year was passed on Friday by the liner Nieuw Amsterdam, which arrived here last evening. The berg was floating along in latitude 43 degrees 42 minutes north and longitude 48 degrees 51 minutes west, just off the Grand Banks. Capt. Roggeveen brought the vessel close by the big ice cake, going very little out of his way to pass it within 700 feet, and gave the passengers a good chance to observe and photograph the Arctic prodigy.

### CAID OF THANKS.

We desire to thank our friends and neighbors for their beautiful floral offerings, also Rev. Schmidt for his words of comfort at the death of A. I. Fitzsimmons. Mother, Brothers and Sisters.

### KILLED SELF IN PRESENCE OF HIS CHILDREN

Marion O. July 11. — With his three children standing in the room near him, George W. Martin, 45, shot himself in the chest, close to the heart, and is in a precarious condition. Martin had sent his wife on an errand. Ill health is thought to have prompted the deed.

### NEW LAW

Of Nine Hours for Women Will Compel Telegraph Companies to Replace Women With Men.

The following statement has been sent to all offices of the Western Union in the state by Superintendent I. N. Miller of Cincinnati:

"The nine-hour law will force women out of the telegraph service in Ohio, or wherever like laws are in existence. It is necessary for us to keep our offices open longer than nine hours a day, in order to serve the public, and in cases where women are managers, that is impossible under the new law.

"It was necessary to take this step as State Attorney General Hogan has given his unofficial opinion as to the constitutionality of the law, which is therefore, in effect right now." We had our first experience of what it must mean last Sunday. Because we men managers could not keep their offices open, it was necessary to call up people for whom we had telegrams and advise them in that way. The ordinary hours for a telegraph office are from 8 a. m. to 6 p. m., with an hour for luncheon. That means a ten-hour day, and, besides, we have Sunday hours. It is plain that it is impossible for us to keep within the provisions of the 64 hours a week prescribed by the new law, especially in the case of women managers, who will, therefore it seems, have to be replaced by men."

Some of the women now working in Ohio will be transferred to other states, it was announced. Women telegraphers in Cincinnati frequently worked overtime and thereby earned \$3 more a month. This practice will have to be stopped.

### Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, and even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them and enjoy the glorious health and new strength they will give you. Money back if you are not satisfied. Only 50c at F. D. Williams.

### ROBINSON'S BIG SHOWS COMING MONDAY, JUNE 24

There is always something fascinating about a trained or educated animal exhibition. The John Robinson 10 Big Shows Combined which is to exhibit in Newark on Monday, July 24 have in connection with their many other attractions the most perfectly educated groups of wild and domesticated working in harmony that has ever been seen. The perfection attained in the education of these animals is nothing short of the marvelous. In a great large steel enclosure twenty ferocious tigers are permitted to mingle with the barn yard denizens of this country. Not only do they dwell in harmony but they perform many difficult accomplishments that are as astonishing as they are fascinating. If you can imagine a lion that gracefully rides horse back and a cute little lamb that allows itself to be fondled by a Bengal tiger, while leopards, panthers, house cats, monkeys, wolves and blood hounds do great leaps and somersaults over the backs of elephants and camels, you have a very faint idea of the perfection of education that has been attained by this wonderfully mixed group of animals.

When this magnitude of this aggregation is taken into consideration and the merit considered it causes one to wonder how it can be done. With the very best of performers holding sway in the three rings, on the elevated platform, in the air, on the hippodrome track and in spectacular with a wild west exhibition that is more than a show in itself and with an unequalled trained animal exhibition in connection with the very largest menagerie ever assembled one must conclude that there is no limit to the offerings of the John Robinson 10 Big Shows Combined.

Preceding the performances there will be a grand free street parade in the morning which will leave the show grounds at near 10 o'clock as circumstances will permit. This mighty street pageant is over a mile in length and full of magnificence and splendor. It will pass through the principal streets and immediately upon its return to the show grounds a great outdoor exhibition will be given which is said to be extremely thrilling.

Two performances will be given. The afternoon performance at 2 o'clock and the evening performances at 8 o'clock. Doors to the menagerie and congress of nations will open one hour earlier. All the tents with this show absolutely sun and waterproof and there are comfortable seats for 10,000 people. The John Robinson 10 Big Shows Combined never disappoint nor do they ever change their date. It is an all feature show whose advertising is truthfully presented and whose reputation for fair dealing with its patrons is proverbial.

### OLD TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special Agent—Hall's Drug Store, 10 North Side Square.

### FATHER

Pleaded for Slayer of His Son and Columbus Judge Suspended Reformatory Sentence.

Columbus, O., July 11. — With words of quiet eloquence flowing from his lips, with tears in his eyes and the ring of sincerity in his voice Ben Smith, a farm hand living near Columbus, appeared in common pleas court today and quoted the scriptures in an effort to abate the penalty that had been meted out to the confessed murderer of his own son.

"Vengeance is the Lord's," he told Judge Rathmell, pleading for Lloyd R. Mayer of this city, who, as a boy of 18, shot and killed Mr. Smith's son while hunting with several companions.

Because of this plea Judge Rathmell suspended the sentence to the Mansfield reformatory, which he imposed upon the young man a week ago, and he will not go to prison if his habitual good behavior continues.

The event took place five years ago. At that time young Mayer disappeared. A few days ago he returned to Columbus voluntarily, gave himself up and confessed that he had fired the shot which killed Smith. It developed that young Mayer had shot at the dogs which were sickened upon him and his young companions by young Smith. The shot went astray and killed the owner instead of the dogs.

"I should not have rested until you went to the chair," was the significant remark made by Mr. Smith to the young man, "if you had remained in Columbus then and stood trial. Since then I have thought it over. I have consulted the word of God and considered the affair from every angle. Now I am convinced that it does not lie within the province of human agency to undertake the punishment of a man under such circumstances as these. It is with God, He only can know the measure of blame to be imposed.

Further, he believed Mayer had suffered enough in the five years of exile from his family.

### Go To Bruno

FOR YOUR SUMMER VACATION TRIP.

It is the Ideal Place

Good fishing and boating. Hotel rate \$7.00 a week. Boats and fishing tackle free to boarders.

### POLICE COURT

John Weakley, Samuel Miller and Dick Seary were arraigned before Mayor Ankele this morning on a charge of petit larceny. It being alleged that they were implicated in the theft of tools from a blacksmith shop between Fourth and Fifth streets. The men were found guilty and each sentenced to 30 days in jail. Officer Callan made the arrests.

Pleas Roberts, charged with assaulting Miss Holler with intent to kill, had a hearing before Mayor Ankele this afternoon at 1:30. A long list of minor offenders appeared before Mayor Ankele this morning in police court. Some of the cases were dismissed and other victims were given light fines.

### CONCRETE IN THE COUNTRY.

This is an illustrated booklet of 112 pages, which is being distributed free of charge by the Superior Portland Cement Co., Cincinnati, O., to farmers and suburbanites of Ohio, Indiana, Kentucky and West Virginia. ### CUT WEEDS

All property holders having weeds on their premises are hereby ordered to cut them down at once. By order of NEWARK HEALTH DEPT. 10d2t

### KILLED DURING ROW AT DANCE

Lexington, Ky., July 11. News was received here today of a double killing and the fatal wounding of a third person at a dance in Whitley county. It is said the trouble arose as a result of George Glancy paying too much attention to Mrs. Minnie Stout, a stepdaughter of Sheriff William Clymer. Clymer is said to have told Glancy he must stop paying attention to Mrs. Stout. Glancy then upon shot and killed Clymer and probably fatally wounded Mrs. Stout. Clymer's 15-year-old stepson then appeared upon the scene with a rifle and shot Glancy through the head, killing him instantly.

### Plague Victims Bared.

Columbus, O., July 11. When digging a trench for the new sewer system at the Ohio Penitentiary yesterday unearthed three coffins which contained the bones of as many victims of the cholera plague, which 10 years ago visited the prison. The bones will be cremated and the ashes will be placed in an urn, buried, and over them will be erected a tablet in memory of the three victims of the plague. The coffins were in a remarkable state of preservation. They were unearthed inside the present walls at a point which, at the time of burial, was immediately outside the old prison walls. The plague, which claimed more than 100 victims, raged inside the prison for several weeks. Thirty-seven prisoners and five guards are known to have been victims.

### TRAVELING CRANE

Fell, Killing Five Men and Injuring Two Others, at Meyers, Pa.

Meyersdale, Pa., July 11. Five men were killed and two hurt when a traveling crane bearing a 14-ton steel girder, being placed in the new viaduct in course of construction for the Western Maryland railroad at Salisbury Junction fell out yesterday afternoon. The dead:

John Scott, McKeesport, Pa.; Joseph Smith, Grove City, Pa.; J. W. White, Richmond, Va.; C. H. Kennedy, New River, Va.; E. L. Sanders, Bullochville, Ga. All the men were employed by the McClintic-Marshall Construction Co. of Pittsburgh. The big girder was being hoisted from the ground to the top of the viaduct, a distance of 125 feet. The men were standing on the hoisting machine, when suddenly a chain snapped and it fell, carrying five men with it. All were instantly killed.

**A Peek Into His Pocket.** Would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter of Marilla, N. Y., always carries. "I have never had a cut, wound, bruise, or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at F. D. Hall's.

### JEWETT EXCURSION TO CEDAR POINT

The Employees' Beneficial Association of the Jewett Car Works will run another one of its popular excursions to Cedar Point next Saturday and the fare for the round trip will be only \$1.50. The train will leave this city at 6:15 a. m. and returning will leave Sandusky at 6:20. This will give the excursionists ample opportunity to visit all attractions at the point and also spend several hours in the water if so desired.

The Jewett excursions to the Point are popular for several reasons. There is no stuffy, dusty, dusty long ride in crowded coaches. Instead, plenty of coaches will be provided and after the train leaves Newark not a single stop will be made to take on passengers. Through service for excursionists is a luxury seldom enjoyed and hundreds who have made previous trips with the Jewett employees will again take advantage of the cheap rates and visit delightful Cedar Point Saturday.

# MANUFACTURERS' SURPLUS SALE

**BEGINS  
Tomorrow Morning at 8 o'clock  
And Continues for 15 Days**

In the variety of Merchandise, in the Absolute Disregard for Former Price, in the Superior Quality of the Goods, in the almost Unbelievable Extent of Money Savings Involved—This Manufacturers' Surplus Sale is Our Supreme Effort.

We've been thinking of it and planning it for months. No manufacturers who were big enough to offer us good enough merchandise at low enough prices were overlooked. The net was spread far and wide, whatever was not good enough in quality of style or not sufficiently worth while in price concession was quickly discarded.

But there were hundreds of reputable makers who had just what we wanted and who were anxious to exchange their goods for our ready cash on the basis of our own terms and today this store is ready with the greatest aggregation of New Up-to-Date and Faultless Merchandise at prices so low that the savings you will average will be as high as ONE-HALF.

## Hundreds of Bales of Mill Ends

Though of the same quality and texture as the goods in the full bolt short ends are considered undesirable from the manufacturers standpoint.

We buy them at prices away down below those other stores pay for the same goods in the bolt. The short pieces or short ends are just as desirable to you who want it for a waist, a skirt or a single dress.

Then there are other manufacturers who are overstocked. We offer them a price for their over-stock that ordinarily would be out of the question. Finally we go through our own regular stocks and apply the price cutting knife deeply to such articles as may be moving too slowly. This briefly makes a manufacturers Surplus Sale and creates for you the greatest money-saving opportunity of the year.

## This Manufacturers' Surplus Sale

Begins Wednesday Morning, July 12th, and continues for Fifteen Days. Come expecting more than you ever received before in an event of like nature, both from the standpoint of quality and price. You'll not be disappointed.

THE PRICES WE QUOTE WILL BRING BIG RESPONSE AND WILL ALSO NECESSITATE OUR ADHERING RIGIDLY TO A STRICTLY CASH BASIS DURING THIS SALE.

Sale Begins Tomorrow Morning July 12 and Continues For 15 Days

Come expecting more than you ever received before in an event of like nature. You'll Not be disappointed
